Project Description

Principal's Priority

1

Provide funding to begin planning effort to renovation of 3 adjacent rooms to bring them up to ASD Educational Specifications: Library, 1/2 size classroom, and primary classroom being used for kindergarten class.

Benefits if Project is Funded

The kindergarten classroom would be brought up to ASD standards in square footage and with the recommended fixtures. Kindergarteners could be provided the same nurturing learning environment that the students in the other two kindergarten classrooms receive. The library would become a much more welcoming learning environment if it were renovated.

Impacts if Project is not Funded

If the project is not completed, students will continue to have a substandard kindergarten classroom with limited areas for general play and with no kitchen area for cooking. If (the library) is not completed it will remain dark, noisy, and continue to have an unpleasant odor.

of Students impacted by project 300

Project Start Year 2011
Project Finish Year 2011

Project has matching funds are available

No
Project has prior state funding available

No

Project has federal funding available No

Project has has a public review process Yes Capital Request Advisory Committee
